

hamoso

Company Presentation

hamoso is a branch of the company Oeschger Handelsvermittlung (sole proprietorship) which was founded in 2020. The headquarter is in Büren SO which is located in the beautiful canton Solothurn in Switzerland.

hamoso is a commercial agency and an online business which supports startups, small and medium-sized enterprises coming from Central-Eastern and Southeastern Europe in placing products or services on the German-speaking market and the other way around.

We have working experiences in the fields of trade, sales, e-commerce, social media, and marketing. We know the German-speaking market and we also have a clear understanding of the social, political and economic circumstances of Central-Eastern and Southeastern Europe. Thus, we have a quite broad understanding in that what we do.

You can rely on us!

By looking specifically on the German-speaking market, it is apparent that some products or services from Central-Eastern and Southeastern Europe (MOSO) are often not represented. But hamoso is convinced that there is a lot of business potential for various products and/ or services from MOSO.

Consequently, hamoso passionately supports companies from Central-Eastern and/ or Southeastern in order to make market access in the German-speaking world possible. But we also do the same for German, Austrian and Swiss (incl. Liechtenstein) companies which are seeking new markets in MOSO.

In order to make things possible, hamoso collects all important information about ideas and goals of a company. After having all necessary information and after setting a timeframe, we will begin to use our know-how in order to find the best way to enter new markets.

Your success is our motivation!

Providing market entry
in order to enlarge the
scope of a company's
business

Improving public
relations to efficiently
reach purchasers,
customers or partners

Enhancing social media
so that products or
services get a broad
attention

Making e-shop available
for a company in order
to simplify the sales
process

Compiling information
to better understand
the situation on the
German-speaking
markets and on the
MOSO markets

Representing companies
at exhibitions or shows
to get in touch with
new partners

We love to expand your business!

We love to place products on markets because this is exciting. But it is not only this that drives us but also the conviction of supporting a European economic integration.

Thinking sustainable is important in respect for next generations. So, also for us, it is important to make decisions based on such a principle because in a short and long run, we all will benefit from it.

We are a perfect partner for startups and small & middle-sized enterprises because we are flexible professional, supportive and uncomplicated and we offer best value for money.

hamoso sees itself as a social enterprise believing in a European integration which can improve social balance. Therefore, part of our general income is being invested in a NGO.

You can count on our values!
